178 cm

+

Size : 178 cm
Weight : 3,68 kg
Mini Stance : 46 cm
Maxi Stance : 62 cm
Inserts : 28
Shape : Directional

The ideal everyday board for experienced riders who prefer sharper turns and all-round performance.

At high speed, the D1+ is perfectly positioned between the D1 standard and the D1++ in terms of stability.

Take charge of wide-open areas.

Ideal rider size

BEGINNER
1,80m ↔ 2,00m
INTERMEDIATE
1,75m ↔ 2,00m
EXPERT
1,70m ↔ 1,95m

Ideal rider weight

BEGINNER
75kg ↔ 110kg

++

Size : 178 cm
Weight : 3,70 kg
Mini Stance : 46 cm
Maxi Stance : 62 cm
Inserts : 28
Shape : Directional

Nonconforming, different, surprising, high-performance, the board for serious freeride.

Maintaining stability at high speed, this snowboard has a hankering for wide-open spaces. The addition of carbon into the nose further increases its stability. For powerful riders and carvers, huge curves guarantee heightened sensations and stoke.

Ideal rider size

BEGINNER
1,85m ↔ 2,00m
INTERMEDIATE
1,80m ↔ 2,00m
EXPERT
1,75m ↔ 2,00m

BEGINNER
70kg ↔ 110kg
INTERMEDIATE
75kg ↔ 110kg
EXPERT
80kg ↔ 110kg

Dupraz

Love your own curves

I still love tracking curves onto the snow after 25 years of passionate work put into designing, working and shaping the curves of the boards themselves. Surf, ride, steer, make tracks in nature. Feel them, live them then admire them, on water and on snow...

We created the D1 to gain better control, mastery and appreciation of your own curves. It's an amalgamation of many parameters, above all based on observation and feeling. Ultimately, we are aiming towards where the curve is pointing us.

We have the same mindset as twenty-five years ago: the pioneering spirit which shook up the winter sports world, a contributing factor in the creation of a new sport: snow surfing, later to become snowboarding.
